Wednesday, 13 January 2010

CRED Jewellery is proud to present the new, beautiful collection by designer Annabel Panes. The Penelope Collection is an elegant 13-piece set of rings, earrings and necklaces inspired by the cocktail drinking ladies of the 1930's, and specifically the designer's Grandmother.

Penelope Ram was a lady who had a great eye for beauty and saw Jewellery as the basis on which to create an outfit. The collection takes the elegance and glamour of the 1930s and applies a modern twist. The rings place precious stones in delicate settings that maximize their splendour and reflect the simple elegance of the time. The pendants and earrings mirror the lines of the rings, to create intricate and stylish pieces.

The collection is made from Oro Verde Fair Trade 18ct White Gold, and set with opulent ethically sourced Aqua, Iolite, Rhodalite, Sapphire and Amethyst from Africa, India and South America.
